

# OUR MISSION

TO PROVIDE QUALITY PRODUCTS,  
PROFESSIONAL & EXCELLENT SERVICE  
TO OUR CUSTOMERS & AIM FOR TOTAL  
CUSTOMER SATISFACTION.

音銘私人有限公司  
**Immco Sdn Bhd**

## CORPORATE PROFILE

Immco Sdn Bhd was set up in 1994 and has an excellent sales and service record for hydraulic tools & equipment in the local and oversea market. We are proud to be one of the longest serving Authorised Distributor for SPXFlow Power Team Hydraulics Tools since 1995.

With over 20 years of experience, we strive to be one of Malaysia's leading industrial supplies company to achieve utmost satisfaction for our customers. We accomplish that by providing extended services with prompt delivery, after sales services, and innovative and total solutions to customers' problems through the use of differentiated and standard products with reasonable returns.

IMMCO provides "One Stop Solution" for all your Hydraulic and Maintenance Needs and is the Authorised Distributor for many reputable brands and quality products.

Our mission is to provide quality products, professional service and total customer satisfaction.

Costex Tractor Parts CTP® is a worldwide quality supplier of new replacement parts for Caterpillar® Equipment. On top of offering premium parts, CTP also provides exceptional service, outstanding savings and the support needed to get orders out quickly and accurately. Immco became the Authorised Distributor and Stock in Singapore since 2011.

## PRODUCT CATEGORY

CTP parts are put through a rigorous quality control inspection process to ensure quality consistency and guarantee maximum performance parts to customers. CTP offer "Quality with Value Guaranteed™".

### ABC Gasket Kit / Seals & Gaskets

- ⊗ The ABC Gasket Kit program is designed to consolidate gasket kits and make it easier for the parts person to order and for the rebuilder himself to quickly identify and organize their seals and gaskets.

### Electrical System

- ⊗ Tested at the facilities, the Electrical Systems are guarantee to work in proper condition. CTP electrical parts are built to last and work in the most extreme environmental conditions.

### Engine Components / Overhaul Kit Power Packs

- ⊗ CTP engine parts are designed and manufactured to work hard as an integrated system. With continual improvement to manufacturing techniques, customers are assured with quality products with the best technology available in the market.

### Braking & Steering System

- ⊗ CTP offers everything you need for the repair and maintenance of your equipment's complete braking system. The parts in the braking system work as hard as those in any other system on your machine. Parts are rigorously inspected to ensure your safety.

### Power Train

- ⊗ Power train components must hold up high impact loads and frequent changes of direction and movements. CTP takes into account all these demands using testing procedures that simulate real-world applications.

### Hydraulic System

- ⊗ The Hydraulic system transfers pressure through liquid to drive hydraulic machinery in the lifting of an object. CTP hydraulic parts help increase the force to get the desired power needed to operate your machine.

### Other product category includes:

- ⊗ Cooling System
- ⊗ Fuel Injection
- ⊗ Operator Station
- ⊗ Hardware
- ⊗ Ground Engaging Tools
- ⊗ Bearings
- ⊗ Undercarriage
- ⊗ Frame & Body
- ⊗ Tools & Accessories
- ⊗ Filters
- ⊗ Rubber Track

Atlas Copco

Bolting Solutions

Atlas Copco offers a comprehensive range of mechanical and hydraulic bolting equipment, allowing precision and effective force to make work productive and safe. From joint assembly, controlled tightening, torque wrench pumps to joint separation, Atlas Copco's bolting equipment tools offer a one stop solution for your problems. Immco is the Authorised Service Center for Atlas Copco in Malaysia.

## PRODUCT CATEGORY

### Hydraulic Driven Torque Wrench

Carries a wide range of hydraulic torque wrenches – notably the square drive and direct hex insert type.

### Air Driven Torque Wrench

Carries a wide range of lightweight pneumatic nutrunner with adjustable torque output.

### Manual Torque Wrench

Carries a wide range of adjustable manual hand-held torque wrenches.

Tentec  
— Part of the Atlas Copco Group

## TENTEC BOLT TENSIONERS

Atlas Copco Tentec offers world class bolting solutions for oil & gas, conventional power generation, wind energy and other industries using their standard range of hydraulic bolt tensioning tools and hydraulic nuts.

## PRODUCT CATEGORY

### Tentec Hydraulic Tensioners

Tentec Hydraulic Tensioners are designed to suit a very diverse application. With various established product lines, these tensioners are more than capable of handling typical topside, subsea and wind turbine bolting applications, to mention a few. The tensioners are open to customization to tailor fit any application.

### Tentec Hydraulic Nuts

Tentec Hydraulic Nuts offers an extremely rapid and simple method of tensioning bolts simultaneously and accurately on a bolted piece. These hydraulic nuts become a permanent part of the bolted piece and remain on the section after the bolt load has been generated.

Hydratron is the Global Leader in manufacturing of High-Pressure Air Driven Liquid Pumps, Gas Boosters and associated systems. They take pride in its reputation for manufacturing high-quality, reliable equipment and its flexible approach to engineered system design, ensuring customers functional demands are always catered for. Immco was appointed the Authorised Distributor for Hydratron since 2009.

## PRODUCT CATEGORY

### Air Operated Liquid Pump

- ~ 4 ranges offering output pressures up to 45,800 PSI (3,160 Bar)
- ~ Output flows up to 7 gpm (31.5 Ltr/min)
- ~ Chemical service models available
- ~ ATEX and PED compliant

### Standard Power Packs and Hydrostatic Test

- ~ Incorporating well proven and reliable Hydratron air operated pumps
- ~ Include all necessary controls and instrumentation
- ~ Chemical service models available
- ~ Output pressures up to 45,800 PSI (3,160 Bar)
- ~ Output flows up to 7 gpm (31.5 Ltr/min)
- ~ Electric, petrol and diesel driven units are available

### Air Operated Gas Booster Pumps and Power Packs

- ~ Output pressures up to 21,000 PSI (1,448 Bar)
- ~ Ideal for pressure testing with gases such as air, nitrogen or helium
- ~ Capable of handling hydrogen and methane (special sitting conditions apply)
- ~ Ideal for charging hydraulic accumulators or down hole tools
- ~ Numerous laboratory applications

### High-Pressure Valves, Fittings, and Tubing

- ~ Full range of medium and high-pressure valves and fittings available
- ~ Needle, ball, check and safety valves can be supplied from stock
- ~ Elbows, Tees, Crosses, Couplings, and Adaptors make up the fittings range
- ~ Specials can be manufactured to order

**KuDos**<sup>®</sup>  
Professional Hydraulic Tools.

Established as a professional manufacturer of hydraulic tools, KuDos' range of tools include Hydraulic cutters, crimping tools, cable crimping tools, hydraulic pumps and more. All KuDos hydraulic tools are developed using American and European technology which comply with standard of CE, ISO 9001, ISO 14001, IECQ QC 080001 and OHSAS 18000. With years of industry experience, KuDos is constantly developing new innovative solutions to add on new quality tools to their product line. Immco was appointed the Authorised Distributor for KuDos Hydraulic tools since 2006.

## PRODUCT CATEGORY

### Hydraulic Cutter

- Suitable to work with telcom and industrial cables such as ACSR.

### Hydraulic Crimping Tools

- Applicable compression range up to 1,000 mm<sup>2</sup>, crimping force up to 200 Tons.

### Hydraulic Nut Splitter

- Size of nut range up to 75mm, splitting force up to 90 Tons.

### Hydraulic Flange Spreader

- Integrated wedge concept: friction-free, smooth, parallel wedge movement eliminates flange damage and spreading arm failure.

**BETEX**<sup>®</sup>  
INDUCTION POWER TOOLS

Bega International BV in Vaassen, The Netherlands is the manufacturer of Betex Bearing Heaters. Their heaters are used all over the world and in various industries. Immco was appointed the Authorised Distributor for Betex Induction Heater in Malaysia since 2008.

## PRODUCT APPLICATION

### Induction Bearing Heating

Induction Bearing Heating is a superior, fast and controlled heating method.

- Applicable to bearings, gear wheels, bushes and coupling etc.
- Provides Energy Saving alternative to traditional methods.
- Prevents unnecessary damage and retains original lubrication ideal for sealed and pre-lubricated bearings.
- Large selection range from 3.6 to 100kVA.
- Meets EC and IEC standards.

## **JACKRAM** HYDRAULIC EQUIPMENT

Jackram specializes in designing and manufacturing professional hydraulic equipment and tools for the Auto Repairing industry. Jackram had expanded their product line since 2003 while building towards sustainable productivity.

### **PRODUCT CATEGORY**

#### **Hydraulic Puller**

- Four stages of foldable and removable handle saves handle force during operation
- 360° rotary socket
- Self-contained hydraulic pump and puller body with integral safety valve
- Heat treated and chrome plated hydraulic cylinder rod provides linear force
- Easy release valve
- Spring loaded live centering nut for ease of usage (removable)
- Extension rods allow user to extend the stroke according to needs
- Applicable to various applications where pulling is required

CEJN is a leading global niche company providing innovative quick connect solutions and high-pressure hoses and fittings, adding value and productivity to customer applications and processes. CEJN is committed to high-quality products with focus on performance, safety and environment, secured through own development and production in a spirit of continuous improvements of processes, technologies and products.

### **PRODUCT CATEGORY**

#### **Ultra High-Pressure Hydraulic Products**

The wide range of High-Pressure couplings and hoses is compatible with Jacks, Cable Cutters, Pipe bending and bolt tensioning tools, torque wrenches, rescue equipment, hydrostatic testing equipment, and more. CEJN's High-Pressure Hydraulic Products are built to provide solutions for a wide range of application environments including:

- Subsea, Gas and Turbine, Shipbuilding
- Rescue Service
- Bolt Tightening
- Wind power and heavy lifting

# SPXFLOW

## › Power Team®

From inflatable jacks, hydraulic pumps, cylinders, and synchronous jacking systems to clamping components and hydraulic driven special tools and accessories, the SPXFLOW Power Team ultimate-force tools and equipment are used wherever strong, concentrated force is required – on construction sites, power plants, rail lines, shipyards, mining operations and more. Immo has been the Authorised Distributor for SPXFLOW Power Team Hydraulic Tools since 1995.

### PRODUCT CATEGORY

#### Hydraulic Pumps

Manual Hand Pump, Electric Driven, Air Driven and Battery Operated Pump with maximum working pressure of 10,000psi to suits all kind of hydraulic equipment.

#### Hydraulic Press

Ranges from 5ton to 200ton capacity for all pressing applications

#### Hydraulic Puller

Specially designed for extracting rotary parts like bearings, gears, pulleys and etc.

#### Hydraulic Special Tools

Nut Splitter, Flange Spreader, Inflatable Jacks, Railroad Roller Bearing Puller, Mini Jacks, Stressing Jacks, Toe Jacks, C-Clamps, Puncher and etc.

#### Hydraulic Components and Accessories

Pressure Gauge, Hoses, Valves, Manifold Blocks, Fittings and etc.
