## POWER TEAM™ HYDRAULIC TECHNOLOGIES

From inflatable jacks, hydraulic pumps, cylinders, and valves to clamping components and hydraulic accessories, Hydraulic Technologies Power Team high-force tools and equipment are used wherever strong, concentrated force is required – on construction sites, power plants, rail lines, shipyards, mining operations and more. Imcco Malaysia has been the **Authorised Distributor** for Hydraulic Technologies Power Team Hydraulic Tools since 1995.

### PRODUCT CATEGORY

#### Hydraulic Equipment

- Hydraulic Cylinders
- Hydraulic Pumps
- Hydraulic Pullers
- Hydraulic and Mechanical Tools
- Jacks

## BOLTING SYSTEMS™ HYDRAULIC TECHNOLOGIES

Hydraulic Technologies Bolting Systems is the go-to source for the latest hydraulic torque and tensioning technologies. Bolting Systems offers a comprehensive range of bolting tools, torque wrench pumps, continuous-duty hydraulic pumps, nut splitters, flange pullers, bolt tensioners and bolting systems; as well as all the maintenance, repair and calibration services needed to support them.

Bolting Systems always strives to deliver products with superior quality that are constructed to last. Each industrial product has been developed with the needs of the user as the primary consideration. All our products have the objective of boosting their user's work rate, allowing more to be done within the allocated time and helping to mitigate the effects of fatigue, while also promoting safety.

IMMCO Malaysia is our Authorized Distributor for Bolting System products.

### PRODUCT CATEGORY

#### Hydraulic Equipment

- Hydraulic Pumps up to 1,500 bar
- Hydraulic Torque Wrench
- Hydraulic Tensioners
- Hydraulic Tools & Accessories

#### Featured Product:

#### The Bolting Systems PE60 SERIES High Pressure Hydraulic Bolting Pump.

- Lightweight and portable.
- Best performance-to-weight ratio of all Bolting Systems pumps.
- Ergonomic remote pendant, large button design, requiring low finger depression force to operate, decreasing operator fatigue.
- User friendly LCD / Keypad interface to enable quick setup and maximize productivity.
- "Plug and Play" field installable accessories including an oil cooler and protective roll cage.

# KuDos®

## Professional Hydraulic Tools.

Established as a professional manufacturer of hydraulic tools, KuDos' range of tools include Hydraulic cutters, crimping tools, cable crimping tools, hydraulic pumps and more. All KuDos hydraulic tools are developed using American and European technology which comply with standard of CE, ISO 9001, ISO 14001, IECQ QC 080001 and OHSAS 18000. With years of industry experience, KuDos is constantly developing new innovative solutions to add on new quality tools to their product line. Immco was appointed the Authorised Distributor for KuDos Hydraulic tools since 2006.

### PRODUCT CATEGORY

#### Hydraulic Cutter

- Suitable to work with telcom and industrial cables such as ACSR.

#### Hydraulic Crimping Tools

- Applicable compression range up to 1,000 mm<sup>2</sup>, crimping force up to 200 Tons.

#### Hydraulic Nut Splitter

- Size of nut range up to 75mm, splitting force up to 90 Tons.

#### Hydraulic Flange Spreader

- Integrated wedge concept: friction-free, smooth, parallel wedge movement eliminates flange damage and spreading arm failure.

CEJN is a leading global niche company providing innovative quick connect solutions and high-pressure hoses and fittings, adding value and productivity to customer applications and processes. CEJN is committed to high-quality products with focus on performance, safety and environment, secured through own development and production in a spirit of continuous improvements of processes, technologies and products.

### PRODUCT CATEGORY

#### Ultra High-Pressure Hydraulic Couplings & Hoses

The wide range of High-Pressure couplings and hoses is compatible with Jacks, Cable Cutters, Pipe bending and bolt tensioning tools, torque wrenches, rescue equipment, hydrostatic testing equipment, and more. CEJN's High-Pressure Hydraulic Products are built to provide solutions for a wide range of application environments including:

- Subsea, Gas and Turbine, Shipbuilding
- Rescue Service
- Bolt Tightening
- Wind power and heavy lifting

Betex International BC in Vaassen, The Netherlands is the manufacturer of Betex Bearing Heaters. Their heaters are used all over the world and in various industries. Immco was appointed the **Authorised Distributor** for Betex Induction Heater in Malaysia since 2008.

### PRODUCT APPLICATION

#### Hydraulic Equipment

**Induction Bearing Heating is a superior, fast and controlled heating method**

- Applicable to bearings, gear wheels, bushes and coupling etc.
- Provides Energy Saving alternative to traditional methods
- Prevents unnecessary damage and retains original lubrication ideal for sealed and pre-lubricated bearings
- Large selection range from 3.6 to 100kVA
- Meets EC and IEC standards

Jackram specializes in designing and manufacturing of mechanical pullers for dismantling of all kinds of transmission parts such as bearings, couplings, gears, wheels etc. Their pullers are available as high as 100Ton.

### PRODUCT CATEGORY

#### Hydraulic Pullers

- Standard Hydraulic Puller
- Hydraulic Easy Puller
- Separate Hydraulic Puller / Pump
- Universal Bearing Attachments Cross Bearing Pullers
- Hydraulic Pullers with Accessories

Hydratron is the Global Leader in the manufacture of High-Pressure Air Driven Liquid Pump, Gas Boosters and associated systems. They take pride in its reputation for manufacturing high quality, reliable equipment and its flexible approach to engineered system design, ensuring customers functional demands are always catered for. Immco was appointed the **Authorised Distributor** for Hydratron since 2009.

## PRODUCT CATEGORY

### Air Operated Liquid Pump

- 4 ranges offering output pressures up to 45,800 PSI (3,160 Bar)
- Output flows up to 7 gpm (31.5 Ltr/min)
- Chemical service models available
- ATEX and PED compliant

### Standard Power Packs and Hydrostatic Test

- Incorporating well proven and reliable Hydratron air operated pumps
- Include all necessary controls and instrumentation
- Chemical service models available
- Output pressures up to 45,800 PSI (3,160 Bar)
- Output flows up to 7 gpm (31.5 Ltr/min)
- Electric, petrol and diesel driven units are available

### Air Operated Gas Booster Pumps and Power Packs

- Output pressures up to 21,000 PSI (1,448 Bar)
- Ideal for pressure testing with gases such as air, nitrogen or helium
- Capable of handling hydrogen and methane (special sitting conditions apply)
- Ideal for charging hydraulic accumulators or down hole tools
- Numerous laboratory applications

### High-Pressure Valves, Fittings, and Tubing

- Full range of medium and high-pressure valves and fittings available
- Needle, ball, check and safety valves can be supplied from stock
- Elbow, Tees, Crosses, Couplings, and Adaptors make up the fittings range
- Specials can be manufactured to order

**COSTEX TRACTOR PARTS CTP®** is a worldwide quality supplier of new replacement parts for Caterpillar® and Komatsu® Equipment. Besides offering premium parts, CTP also provides exceptional service, outstanding savings, and the support needed to get orders out quickly and accurately. **IMMCO** became the **Authorized Distributor** and **Stockist** for CTP in 2010.

**CTP PARTS** are put through a rigorous quality control inspection process to ensure quality consistency and guarantee maximum performance parts to customers. CTP offer "Quality with Value Guaranteed™"

### SEALS & GASKETS

CTP seals and gaskets are made with high technology tools to guarantee an exact dimension and a proper fit, reducing the risk of leakage and increasing operational life.

### ABC GASKET KIT

The ABC Gasket Kit program is designed to consolidate gaskets kits and make it easier for the parts person to order and for the rebuilder himself to quickly identify and organize their seals and gaskets.

### ENGINE COMPONENTS

CTP engine parts are designed and manufactured to work hard as an integrated system. With continual improvement to manufacturing techniques, customers are assured with quality products with the best technology available in the market.

### FILTERS

CTP filters are engineered to provide maximum protection, increase productivity and ultimately save on the operating cost of your machine

### ELECTRICAL SYSTEM

Tested at the facilities, the Electrical Systems are guarantee to work in proper condition. CTP electrical parts are built to last and work in the most extreme environmental conditions.

### POWER TRAIN

Power train components must hold up high impact loads and frequent changes of direction and movements. CTP takes into account all these demands using testing procedures that simulate real-world applications.

### HYDRAULIC SYSTEM

The Hydraulic system transfers pressure through liquid to drive hydraulic machinery in the lifting of an object. CTP hydraulic parts help increase the force to get the desired power needed to operate your machine.

### OTHER PRODUCT CATEGORY INCLUDES:

- Cooling System
- Braking & Steering
- Hardware
- Fuel Injection
- Undercarriage
- Ground Engaging Tools
- Frame & Body
- Rubber Track
- Operator Station
- Bearings
- Tools & Accessories

**Immco Sdn Bhd**

## CORPORATE PROFILE

**Quality Products • Technical Expertise • Reliable After-Sales Support**

Established in 1994, Immco Sdn Bhd has been a trusted distributor of quality hydraulic products and industrial tools in Malaysia for over three decades. We represent a portfolio of reputable international brands, supplying reliable products backed by technical expertise and dependable after-sales support.

Our product portfolio covers a comprehensive range of hydraulic and industrial equipment, including:

- High Pressure Hydraulic Tools & Equipment
- High Pressure Hydraulic Bolting Solutions
- High Pressure Testing Equipment
- Replacement parts for Heavy Equipment like Caterpillar® & Komatsu®

We serve customers across a wide range of industries, including construction, forestry, oil and gas, mining, marine and offshore, railway, power generation, steel manufacturing, and general manufacturing.

With extensive industry experience, our team works closely with customers to understand their operational requirements and recommend solutions that enhance efficiency, safety, and equipment reliability. We provide technical consultation, product application support, and responsive on-site service to ensure customers select the most suitable products for their specific applications.

Supported by ready stock, efficient distribution and responsive customer service, IMMCO is committed to delivering consistent value through quality products, dependable support and long-term customer partnerships.

For more than 30 years, our commitment has remained unchanged – to be a dependable partner that customers can trust for their hydraulic and industrial product needs.
